

IJIS Institute

Got a Mission?

So do we. We are the **IJIS Institute**, a non-profit membership organization that joins industry with government to improve information sharing through standards and technology.

We provide a collaborative venue for traditional competitors to come together in partnership and become part of this critical national initiative.

Your customers know who we are, maybe it's time you did, too. Visit us at www.ijis.org to learn more.

Realize the Power of Information

Join the Voice, Advance the Mission.
